

Port of Seattle

May 26, 1994

Burlington Environmental
Attn: Mr John Stiller, Project Manager
Technical Center
955 Powel Avenue SW
Renton, Washington

Dear Mr. Stiller;

This letter is in answer to your request at our technical work group meeting of May 26, 1994, that the Port of Seattle provide written acknowledgment of our agreement to allow Burlington to cut up, remove, and "close as scrap" tanks No. 115, 116, 117, 118, and 165.

As we had discussed, the Port of Seattle has no problems with Burlington cutting up, removing, and "closing as scrap" these five tanks. We agree that it is the most cost effective and expeditious method to move ahead with the "clean closure" of those old tanks.

If you have any more questions, please call me at 728-3192.

Sincerely,

Douglas A. Hotchkiss
Environmental Management Specialist
